Nomura Hiring Team
Instinet Sales Trading
Central, Hong Kong SAR

Re: Associate, Korea High Touch Sales Trading, Hong Kong

Dear Hiring Manager,

I am applying for Nomura's **Associate, Korea High Touch Sales Trading** role in Central (LinkedIn posting 4409263906). The description asks for someone who engages institutional clients alongside sales, research, and operations colleagues, communicates Korea and HK/China market context clearly, safeguards execution discipline, and thrives under sustained pressure across equities, fixed income, and related products.

At OSL in Trading & Liquidity I standardize settlement pathways across jurisdictions, narrate exceptions for treasury and liquidity partners, and monitor balances through volatile tapes so Front Office colleagues receive timely reads without slowing bookings. That rhythm matches the cross-functional hand-offs your team coordinates with sales, research, and operations.

Previously at Amber Group on the Market Making desk I maintained pivot-led trackers and Tableau views that translated BD incentives and event ROI into desk-ready narratives for external liquidity partners. During my Huatai FICC internship I rotated Liquidity Management and the Cash Bonds flow desk, circulated Global IG and macro research for desk discussions, and coordinated with Risk and Settlement on FTP surveillance and trade limits ahead of settlement. I hold an M.Sc. Finance (Honours) from HKUST and a B.B.A. Professional Accountancy (Honours) from CUHK, with Bloomberg, Wind, Excel-VBA, Tableau, and R. I am native in Mandarin, proficient in English, comfortable covering HK/China support gaps alongside fluent bilingual desks, and committed to deepening Korea equities literacy rapidly alongside Nomura's Korean-plus-English requirement for client conversations.

Thank you for considering my application.

Sincerely,

Zhao Yanbo
