Gate Hiring Team
Gate Pay
Hong Kong SAR

Re: Senior BD Manager

Dear Hiring Manager,

I am applying for the **Senior BD Manager** role with Gate Pay in Hong Kong SAR (LinkedIn posting 4407193582). Your focus on onboarding merchants and partners across crypto-enabled payments, fiat on and off ramps, PSP-style integrations, and measurable transaction activity aligns tightly with how I have supported commercial-facing crypto operations and liquidity desks.

Today at OSL in Trading & Liquidity, I run settlement and treasury-aligned workflows spanning multiple jurisdictions, keep fiat and Liquidity Partner routes disciplined with low failure rates, and monitor custodian liquidity through volatile tapes so desks can execute with transparent post-trade narratives. Earlier at Amber Group on the Market Making operations team, I worked beside BD and MM leaders on sourcing, screening, incentive alignment, and Tableau dashboards that tied partner programs to throughput and supported roughly 15% revenue lift in tracked Web3 initiatives.

My FICC summer rotation at Huatai Financial Holding added flow-desk pacing with Liquidity Management and Risk partners, mirroring collaboration models you describe with PSPs and fintech platforms. I hold an M.Sc. Finance from HKUST and a B.B.A. Professional Accountancy from CUHK, am fluent in English and Mandarin, and am comfortable translating complex payment and settlement workflows for cross-functional counterparts.

Thank you for your consideration; I welcome a conversation about driving Gate Pay adoption with disciplined execution.

Sincerely,

Zhao Yanbo
