Work Experience

OSL

Trading & Liquidity Department — Trade Support Associate

Hong Kong

Dec. 2025 – Present

- Serve as the daily liaison among liquidity trading, treasury, and regional booking partners (HK, SG, AU, CA, ID, BM), packaging settlement status and escalation notes so internal sales-style consumers and operations teams can act without rework.
- Maintain standardized settlement pathways and multi-track workflows for high-velocity international trading while keeping controls tight ahead of reactive venue and liquidity-provider deadlines tied to equity, ETF, RWA, and FX-linked products.
- Steer multi-asset settlement quality for ETFs, RWAs, and FX flows with disciplined exception logs so failure rates stay <0.5% when reconciling routes for brokers and house liquidity.
- Run treasury surveillance on house and custodian balances through volatile sessions, translating positions and latency signals into trader-ready briefings that protect execution quality without slowing the desk.

Hong Kong

Feb. 2025 – Nov. 2025

- Coordinated MM and BD sourcing, screening, and execution with external liquidity partners through clear milestones so incentives, limits, and hand-offs stayed traceable ahead of recurring reporting cycles.
- Delivered Tableau dashboards linking event ROI and BD incentives to throughput, aligning desk narratives with measurable outcomes tied to roughly 15% revenue growth on the leadership-reviewed Web3 book.
- Kept disciplined daily maintenance and refreshes on operational workbooks alongside pivot trackers so senior stakeholders received consistent liquidity-partner reads during sustained high-pressure tapes.
