Work Experience

OSL

Trading & Liquidity Department, Trade Support Associate

Hong Kong

Dec. 2025 – Present

- Built scalable operational frameworks across HK, SG, AU, CA, ID, and BM with standardized settlement and treasury-adjacent workflows so leadership could compare KPIs across venues without conflicting booking conventions.
- Ran end-to-end settlement for ETFs, RWAs, and FX-linked flows while tightening fiat on and off ramps and LP routes, keeping operational failure rates under 0.5% and preserving clean inputs for finance consumers.
- Executed cross-chain liquidity rebalances and bridge operations for JIT desk inventory; improved capital turnover by about 20% versus prior manual paths while controlling hedging slippage and gas overhead.
- Directed real-time treasury surveillance on house and custodian balances through volatile sessions, escalating liquidity gaps with concise rationales so Front Office execution stayed aligned with operational risk appetite.

Amber Group

Hong Kong

Feb. 2025 – Nov. 2025

- Rebuilt daily MM BAU with pivot-led trackers and disciplined spreadsheet hygiene in a fast-paced crypto desk, improving tracking efficiency by about 30% and cutting liquidity-partner project delays by about 25%.
- Partnered with MM and BD on sourcing, screening, and execution so incentive structures, milestones, and settlement checkpoints lined up before month-end reporting closed for stakeholders outside Trading.
- Shipped Tableau dashboards on event ROI and BD incentives that linked throughput to revenue narratives and supported about 15% revenue growth in Web3 operations in the leadership-tracked campaign window.
- Logged recurring straight-through-processing and exception themes for leadership reviews, pairing each issue with owners so cross-functional follow-up mirrored disciplined FP&A-style accountability rather than ad hoc email chains.
