Nomura Hiring Team  
Instinet / Global Markets  
Central, Hong Kong SAR

**Re: Associate, Korea High Touch Sales Trading, Hong Kong**

Dear Hiring Manager,

I am writing to apply for the Associate role on the Korea High Touch Sales Trading desk in Hong Kong with Nomura (LinkedIn posting 4409263906). The role's focus on institutional client coverage, disciplined execution, liquidity and execution quality, and close coordination with sales, research, and operations matches how I have worked across trading support and markets internships.

At OSL in Trading & Liquidity, I support multi-jurisdiction trade support and treasury-aligned workflows. I standardized settlement pathways and monitored liquidity and custodian balances so Front Office could execute during stressed markets while exceptions surfaced early for control partners. Previously at Amber Group on the Market Making operations desk, I kept tight daily BAU, coordinated MM and BD workstreams with internal stakeholders, and built Tableau views that tied incentives to desk outcomes under time pressure.

During my FICC internship at Huatai Financial Holding I rotated through Liquidity Management and the Cash Bonds desk and partnered with Risk and Settlement on limits and settlement readiness, which maps to seamless hand-offs across a high-touch equity and fixed income franchise. I hold an M.Sc. Finance (Honours) from HKUST and a B.B.A. Professional Accountancy (Honours) from CUHK, with Bloomberg, Wind, Tableau, Excel/VBA, and R skills. Native Mandarin and proficient English position me to support HK and China desk workflows alongside your team as I deepen coverage skills in a licensed, compliance-focused environment.

Thank you for considering my application. I would welcome discussing how I can contribute to client coverage and execution quality on the Korea High Touch desk in Hong Kong.

Sincerely,

Zhao Yanbo
