Tether.io Hiring Team
Tokenization Expansion
Hong Kong SAR (remote)

Re: Expansion Manager, Tokenization

Dear Hiring Manager,

I am applying for the **Expansion Manager, Tokenization** role with Tether.io in Hong Kong SAR (LinkedIn posting 4404580379). The role's focus on institutional programmes, partner coordination, milestone reporting, and crisp follow-through across business, product, and technology teams matches how I have operated on regulated crypto trading and liquidity desks.

At OSL in Trading & Liquidity, I run multi-jurisdiction settlement frameworks for sophisticated products including ETFs and RWAs, keep fiat and Liquidity Partner routes inside a sub-0.5% failure budget, and maintain treasury surveillance with transparent updates when markets gap, which is the same high-stakes, delivery-first tempo your Tokenization Expansion team describes. At Amber Group on the Market Making operations team, I worked beside BD and MM leaders on sourcing, screening, Tableau-backed incentive views, and concurrent workstreams that lifted tracked Web3 revenue about 15%, experience that transfers to account-style ownership and structured reporting you need for Hadron client and partner initiatives.

My FICC summer rotation at Huatai Financial Holding added flow-desk pacing with Liquidity Management and Risk partners, and my fixed income internship at China Life Insurance (Overseas) covered about \$5 billion AUM across diversified sleeves with Bloomberg-led analysis. I hold an M.Sc. Finance from HKUST and a B.B.A. Professional Accountancy from CUHK, am fluent in English and Mandarin, and am willing to travel when client, partner, or regulatory meetings require it.

Thank you for your consideration; I would welcome a conversation about supporting the Head of Tokenization Expansion with disciplined onboarding, partner alignment, and reliable execution.

Sincerely,

Zhao Yanbo
