Work Experience

OSL

Trading & Liquidity Department, Trade Support Associate

Hong Kong

Dec. 2025 – Present

- Deployed scalable operational frameworks across HK, SG, AU, CA, ID, and BM so international institutional trading, settlement hand-offs, and partner-facing checkpoints stayed repeatable for digitally settled products including ETFs and RWAs.
- Owned end-to-end settlement for ETFs, RWAs, and FX flows with disciplined fiat on and off ramps and Liquidity Partner routes, sustaining failure rates below 0.5% across venues where timely delivery and clear expectations matter for clients and treasury teams.
- Ran cross-chain bridge and JIT liquidity workflows that cut hedging slippage versus manual cycles and improved capital turnover by about 20% in the measured window, aligning execution detail with desks during volatile tapes.
- Led treasury surveillance on custodian balances with on-chain latency analysis and broadcast optimization so Trading could execute while partners saw transparent liquidity narratives, reflecting the paced hand-offs expansion teams run with business, product, and technology partners.

Amber Group

Market Making Team, Operations Analyst

Hong Kong

Feb. 2025 – Nov. 2025

- Maintained disciplined market-making BAU with pivot-led trackers that improved throughput visibility by about 30% and trimmed onboarding delays by about 25% across fast-cycle partner reviews akin to scoped client onboarding gates.
- Partnered with MM and BD teams on sourcing, screening, and incentive alignment ahead of execution, structuring lightweight workflows that kept owners visible across concurrent initiatives.
- Built Tableau views on event ROI and BD incentives that tied partner programmes to throughput and supported about 15% revenue lift in tracked Web3 operations, a pattern I would apply when tracking milestones on institutional programmes.
- Logged STP gaps and escalation themes for weekly leadership forums so each operational finding had an accountable owner, supporting scalable reporting rhythms over multiple live workstreams.

Huatai Financial Holding (Hong Kong) Limited

Sales and Trading Department, FICC Summer Intern

Hong Kong

Jun. 2024 – Nov. 2024

- Rotated through Liquidity Management and the Cash Bonds desk, mapping FI booking rhythms with Trading before Risk and Settlement cut-offs across institutional flow.
- Distributed Global IG research, macro prints, and desk commentary so traders had concise inputs ahead of exposure and limit discussions.
- Automated FTP cost monitoring with Excel-VBA and coordinated limit checkpoints with Settlement so trades flowed cleanly toward Finance-ready records.

China Life Insurance (Overseas) Co., Ltd.

Investment Department, Fixed Income Intern

Hong Kong

Jul. 2022 – Oct. 2022

- Supported stewardship across about \$5 billion AUM spanning 13 funds and managers covering ABS, energy, infrastructure, and real estate sleeves for precise institutional decisions.
- Joined credit and allocation forums with portfolio managers and traders to pressure-test ideas before Risk sign-offs in a fiduciary setting.
- Ran Bloomberg and Morningstar screens for bond picks with rationales packaged for reviewers so follow-up mirrored the memo-style synthesis expansion teams produce.

Guotai Junan Securities Co., Ltd.

IBD Department, Summer Intern

Guangzhou

May 2021 – Aug. 2021
