DBS Bank Hiring Team
Consumer Banking Group, Treasures
Hong Kong SAR (One Island East)

Re: Treasury Specialist, Treasures (Licensed, Sales Incentive)

Dear Hiring Manager,

I am writing to apply for the **Treasury Specialist, Treasures (Licensed, Sales Incentive)** role with DBS Bank in Hong Kong (posted on LinkedIn, 4402922885). The position emphasizes treasury product execution, prudent process adherence alongside regulatory expectations, partnership with branches and the wider TS team, and crisp communication with customers and sales colleagues, matching how I work in high stakes, delivery focused trading and liquidity settings.

At OSL in Trading & Liquidity as Trade Support Associate, I standardized settlement frameworks across HK, SG, AU, CA, ID, and BM, managed ETF, RWA, and FX-linked settlement with failure rates under about 0.5%, improved capital turnover by about 20% through JIT liquidity moves, and kept treasury monitoring tight so Front Office books stayed reconciled through volatile sessions.

Previously at Amber Group on Market Making operations, I ran pivot-led BAU that improved tracking efficiency by about 30% and shortened liquidity-partner delays by about 25%, and I built Tableau incentive views tied to about 15% revenue growth signals in tracked Web3 campaigns. During my FICC internship at Huatai Financial Holding I rotated through Liquidity Management and the Cash Bonds flow desk, circulated market updates, and partnered with Risk and Settlement on limits and Excel-VBA surveillance, while my China Life fixed income internship covered about \$5 billion across thirteen funds with Bloomberg-heavy analysis.

I hold an M.Sc. Finance (Honours) from HKUST and a B.B.A. Professional Accountancy (Honours) from CUHK, with native Mandarin, proficient English, and basic Cantonese. I am keen to bring that markets discipline to DBS Treasures service standards and treasury sales coordination.

Thank you for considering my application. I would welcome the opportunity to discuss how I can support TS team and branch objectives at DBS.

Sincerely,

Zhao Yanbo
