Hiring Team
Equity Capital Markets
Hong Kong SAR

Re: Associate or Vice President, Equity Capital Markets (Hong Kong SAR)

Dear Hiring Manager,

I am writing to apply for the **Equity Capital Markets** Associate or Vice President role in Hong Kong SAR advertised on LinkedIn. The visible overview stresses origination and structuring across IPOs, follow-on placements, block trades, and institutional coverage across Greater China, plus marketing and valuation scrutiny, supervisory engagement, and syndicate pricing and allocation choreography with Mandarin and English fluency stated in that listing.

I remain candid that my deepest hands-on work sits in treasury, liquidity partnership support, fixed income rotations, broader credit portfolios, and IBD diligence versus marquee ECM mandates, yet the pacing, stakeholder density, and documentation rigor resemble what I practiced at OSL, Amber Group, Huatai, China Life, and Guotai Junan.

At OSL in Trading & Liquidity I standardized multi-jurisdiction settlement pathways, monitored Liquidity Partner books through volatile tapes, and kept governance-friendly exception trails so bookings stayed credible before Risk and Settlement closed cycles. At Amber Group pivot-led BAU improved tracking efficiency by about 30%, liquidity-partner delays fell by about 25%, and Tableau-linked incentives correlated with about 15% Web3 revenue lift while leadership received crisp roll-ups ahead of payouts. Huatai's Liquidity Management and Cash Bonds rotations plus Excel-VBA FTP monitors beside Risk echoed the cross-desk choreography ECM teams expect; China Life and Guotai work trained me on large balance-sheet exposure grids and meticulous contract confirmation packs.

My Honours HKUST M.Sc. Finance pairs with Honours CUHK Professional Accountancy and Finance coursework for valuation dialogue alongside Bloomberg, Wind, Tableau, VBA, and R noted on my resume. Native Mandarin paired with proficient English matches the bilingual bar in the post, and I stay composed in high stakes, deadline-driven markets.

Thank you for considering my application.

Sincerely,

Zhao Yanbo
