Nomura Hiring Team
Global Markets / Instinet
Central, Hong Kong SAR

Re: Associate, Korea High Touch Sales Trading, Hong Kong

Dear Hiring Manager,

I am writing to apply for the **Associate, Korea High Touch Sales Trading** role with Nomura in Central, Hong Kong (LinkedIn posting 4409263906). The posting emphasizes high-touch institutional coverage, timely market content, disciplined trade support across sales, research, and operations partners, liquidity and execution-quality awareness, and calm delivery under regulatory and risk guardrails. That matches how I already work between Front Office priorities and middle-office controls.

At OSL in Trading & Liquidity, I coordinate multi-jurisdiction settlement and treasury surveillance, keep exception logs tight for ETF, RWA, and FX-linked flows, and brief desk stakeholders when liquidity and latency signals move so execution stays informed without slowing bookings.

Previously at Amber Group on the Market Making operations desk, I maintained pivot-led trackers and Tableau views that translated BD incentives and event ROI into desk-ready narratives in a high-pressure crypto environment, with about 30% higher tracking efficiency and about 25% fewer partner-project delays alongside roughly 15% revenue growth context on the leadership-reviewed slate. During my Huatai FICC internship I rotated Liquidity Management and the Cash Bonds flow desk, distributed Global IG and macro research for desk discussions, and coordinated with Risk and Settlement on FTP surveillance and trade limits ahead of settlement.

I hold an M.Sc. Finance (Honours) from HKUST and a B.B.A. Professional Accountancy (Honours) from CUHK, with Bloomberg, Wind, Tableau, Excel/VBA, and R. I am native in Mandarin, proficient in English, and basic in Cantonese; I am eager to close any Korean language gap through structured study if the desk requires it. I communicate clearly across teams, escalate issues appropriately, and would welcome contributing to Instinet's high-touch franchise in Hong Kong.

Thank you for considering my application.

Sincerely,

Zhao Yanbo
