DV Trading Hiring Team
Hong Kong

Re: Equity Research Analyst

Dear Hiring Manager,

I am writing to apply for the **Equity Research Analyst** role with DV Trading in Hong Kong. The position's focus on real-time news, macro and geopolitical context, company-level financial work, and rapid communication with traders and analysts matches how I have supported markets-facing teams in fixed income, digital assets, and trade support.

At OSL in Trading & Liquidity I monitor liquidity, settlement, and booking health during volatile sessions, escalate issues with short, decision-ready notes, and keep structured views of positions so desks can trade while controls stay tight. At Amber Group on the market-making operations desk I maintained disciplined daily BAU, built Tableau views that tied incentives to desk outcomes, and kept a high-pressure calendar aligned across partners. During my FICC internship at Huatai Financial Holding I rotated through Liquidity Management and the Cash Bonds desk, distributed Global IG research and macro inputs, and refreshed Excel-VBA tooling with Risk and Settlement so limits and bookings stayed consistent. At China Life Insurance (Overseas) I worked with portfolio managers and traders on credit and allocation questions using Bloomberg and Morningstar screens for bond recommendations across a multi-manager book.

I hold an M.Sc. Finance (Honours) from HKUST and a B.B.A. Professional Accountancy (Honours) from CUHK. I am a native Mandarin speaker with proficient English for live commentary, rely on Bloomberg, Wind, Excel/VBA, Tableau, and R for analytical views, and I follow markets news closely. I would welcome the chance to discuss how I can support DV Trading's research and trading workflow.

Thank you for considering my application.

Sincerely,

Zhao Yanbo
