Work Experience

OSL

Trading & Liquidity Department, Trade Support Associate

Hong Kong

Dec. 2025 – Present

- Built scalable operational frameworks across HK, SG, AU, CA, ID, and BM with standardized settlement paths and parallel workflows so venue bookings stayed complete and auditable during high-volume cross-border sessions tied to daily execution work.
- Manages end-to-end clearance paths for ETFs, RWAs, and FX-style flows; tunes fiat ramps and LP routes so venue failure rates stay under 0.5% while liquidity stays executable for the desk.
- Runs cross-chain liquidity rebalancing and bridge operations for JIT inventory; improved capital turnover by about 20% in the tracked window while limiting hedging slippage and gas drag versus manual runs.
- Leads real-time treasury and on-chain latency checks on house and custodian balances through volatile conditions; surfaces booking gaps and liquidity stress with clear rationales so front-office execution can proceed with control-style oversight.

Amber Group

Market Making Team, Operations Analyst

Hong Kong

Feb. 2025 – Nov. 2025

- Maintains market-making operations with pivot-led trackers and disciplined updates in a fast crypto book, lifting tracking efficiency by about 30% and cutting liquidity-partner project delays by about 25% across weekly reviews.
- Coordinates MM and BD on screening, execution, and hand-offs so incentives, lifecycle milestones, and settlement timing stay aligned before reporting closes.
- Builds Tableau dashboards on event ROI and BD incentives that linked throughput to revenue and supported about 15% revenue growth in Web3 operations in the leadership-tracked window.
- Logs recurring STP and exception themes for leadership with named owners so follow-up resembles production support with monitoring loops rather than ad hoc firefighting.

Huatai Financial Holding (Hong Kong) Limited

Sales and Trading Department, FICC Summer Intern

Hong Kong

Jun. 2024 – Nov. 2024

- Rotated through Liquidity Management and the Cash Bonds flow desk, tracing cash FI booking steps with Trading and Risk ahead of settlement and market cut-offs.
- Gathered Global IG bond research, macro inputs, and desk commentary so traders had timely context before limit and risk conversations.
- Automated FTP cost monitoring in Excel-VBA and refreshed limit views with Risk and Settlement so trades cleared for downstream Finance with fewer manual reconciliations.

China Life Insurance (Overseas) Co., Ltd.

Investment Department, Fixed Income Intern

Hong Kong

Jul. 2022 – Oct. 2022

- Helped steward about \$5 billion across 13 funds and managers spanning ABS, energy, infrastructure, and real estate sleeves, keeping exposure tables accurate under tight review windows.
- Joined credit and allocation sessions with portfolio managers and traders, translating desk questions into focused data pulls ahead of Investment Risk sign-off.
- Ran Bloomberg and Morningstar screens for bond recommendations and captured rationales so reviewer follow-up shortened versus prior informal packs.

Guotai Junan Securities Co., Ltd.

IBD Department, Summer Intern

Guangzhou

May 2021 – Aug. 2021

- Reviewed supplier contracts for pricing and delivery clauses that affected confirmation timing and settlement risk during diligence with standardized legal templates.
- Interviewed counterparties and logged findings so senior bankers could prioritize negotiation points without duplicating field coverage.
- Prepared banking, inventory, and sales confirmations for acceptance testing, including alternate procedures when counterparty replies conflicted so audit paths still closed on schedule.

Extracurricular Activities

Speak Up! English Tutoring Programme for Cambodian Students

Jun. 2023
