DBS Bank Hiring Team
Consumer Banking Group, Treasures
Hong Kong SAR

Re: Treasury Specialist, Treasures (Licensed, Sales Incentive)

Dear Hiring Manager,

I am writing to apply for the **Treasury Specialist, Treasures (Licensed, Sales Incentive)** role with DBS Bank in Hong Kong. The Consumer Banking posting emphasizes disciplined treasury product execution, adherence to regulatory requirements and internal sales process guidelines including prudent treatment of branch referrals, partnership with branches and the wider TS team, and clear explanations of FX-related structures to RM and branch partners. Those expectations match how I work in high stakes, delivery focused market operations.

At OSL in Trading & Liquidity, I standardized multi-jurisdiction settlement protocols, owned FX-linked treasury-style flows where venue failure rates stayed under 0.5%, and produced concise treasury and liquidity summaries for Trading and operational partners before risk discussions tightened. Previously at Amber Group I maintained MM BAU trackers, synced BD-led incentives through Tableau dashboards tied to throughput, and closed exception logs before month-end in a licensing-heavy desk.

During my Huatai Financial Holding internship I rotated through Liquidity Management and the Cash Bonds desk, circulated macro and research updates ahead of internal limit dialogue, paired Excel-VBA FTP monitoring with Risk and Settlement checkpoints, and checked booking instructions versus settlement readiness, which mirrors how I would collaborate with Treasury Services and Risk on structured deposit-style workflows.

My HKUST M.Sc. Finance (Honours) and CUHK B.B.A. Professional Accountancy with a Finance minor map to your Finance discipline requirement. I communicate in proficient English and native Mandarin with basic Cantonese, and routinely use Bloomberg, Wind, Excel/VBA, Tableau, and R. The posting also references regulated sales experience under the SFO; my background to date is trade support, operations, and internships rather than a licensed retail treasury sales track, and I am eager to grow client-oriented treasury explanations and disciplined documentation under Treasures governance.

Thank you for considering my application. I would welcome a discussion about supporting Treasures revenue goals and compliant treasury sales coordination at DBS.

Sincerely,

Zhao Yanbo
