Work Experience

OSL

Trading & Liquidity Department, Trade Support Associate

- Ran end-to-end settlement for ETFs, RWAs, and FX-linked treasury flows with disciplined exception logs; optimized fiat on and off ramps and Liquidity Partner routes, keeping venue failure rates under 0.5% for risk and finance consumers.
- Executed cross-chain liquidity rebalances and bridge operations for Just-in-Time desk inventory; reduced hedging slippage and gas drag versus manual paths and improved capital turnover by about 20% in the measured window.
- Monitored house and custodian treasury balances through volatile sessions; escalated booking breaks and liquidity gaps with written rationales so Front Office retained execution cover while Ops and Risk received timely, auditable reads.

- Built Tableau performance views on event ROI and BD incentives; aligned dashboards with outcomes and contributed to Web3 ops revenue gains of about 15% during the tracked campaign window.
- Logged recurring STP and exception themes for leadership forums and assigned clear owners so ECM-style escalation follow-through stayed traceable under tight reporting windows.
