Nomura Hiring Team
Central, Hong Kong SAR

Re: Associate, Korea High Touch Sales Trading, Hong Kong (Instinet)

Dear Hiring Manager,

I am writing to apply for the **Associate, Korea High Touch Sales Trading** role in Nomura's Hong Kong office. The posting describes coverage of Korean equities from Hong Kong, client engagement, execution-quality and liquidity awareness, collaboration with sales, research, and operations, and disciplined risk and compliance habits across North Asian markets. My recent Trading & Liquidity trade support work and prior Sales and Trading internship align with that cross-functional, high-stakes cadence.

At OSL I standardize settlement and liquidity workflows across multiple jurisdictions, brief Front Office and treasury partners through volatile tapes, and keep escalation threads concise for Operations and controls. Previously at Amber Group on the Market Making operations desk I maintained pivot-led trackers and Tableau views that translated BD and desk incentives into repeatable status for institutional-facing stakeholders.

During my Huatai FICC internship I rotated Liquidity Management and the Cash Bonds flow desk, circulated Global IG and macro inputs for desk discussion, and coordinated with Risk and Settlement on limits and FTP surveillance ahead of settlement. I hold an M.Sc. Finance (Honours) from HKUST and a B.B.A. Professional Accountancy (Honours) from CUHK, with native Mandarin, proficient English, and basic Cantonese, plus Bloomberg, Wind, Excel-VBA, Tableau, and R as listed on my CV. I thrive in delivery-focused trading environments and would welcome contributing to Instinet's Hong Kong high-touch agenda.

Thank you for considering my application.

Sincerely,

Zhao Yanbo
