Nomura Hiring Team
Global Markets, Instinet high touch sales trading coverage
Central, Hong Kong SAR

Re: Associate, Korea High Touch Sales Trading, Hong Kong

Dear Hiring Manager,

I am writing to apply for the Associate role on the Korea High Touch Sales Trading desk at Nomura in Central, Hong Kong (LinkedIn posting 4409263906). The role's mix of institutional client workflow, disciplined execution around liquidity and settlement, and partnership with sales, research, and operations matches how I have supported trading desks in Hong Kong.

At OSL in Trading & Liquidity, I operate multi-venue settlement and treasury surveillance across several jurisdictions, keep failure rates low on complex products, and escalate breaks quickly so Front Office can act in volatile markets. I am accustomed to stakeholder pressure, written hand-offs, and aligning bookings with downstream risk and finance consumers.

Previously at Amber Group on the Market Making operations desk, I maintained disciplined daily BAU, built Tableau views that tied incentives to outcomes, and coordinated MM and BD work with finance and risk partners. During my FICC internship at Huatai Financial Holding I rotated through Liquidity Management and the Cash Bonds desk, distributed credit research inputs, and worked with Risk and Settlement on limits and FTP monitoring using Excel-VBA.

I hold an M.Sc. Finance (Honours) from HKUST and a B.B.A. Professional Accountancy (Honours) from CUHK. I am a native Mandarin speaker with proficient English and basic Cantonese, which positions me to support HK and China workflow alongside global counterparts. I bring Bloomberg, Wind, Tableau, Excel/VBA, and R, and I welcome learning Instinet tools and protocols in a licensed, client-facing seat.

Thank you for considering my application. I would welcome a conversation on how I can contribute to coverage, execution quality, and compliant high-touch service at Nomura.

Sincerely,

Zhao Yanbo
