Education

City University of Hong Kong

B.Sc. Computer Science, Minor in Business Intelligence

Hong Kong

Jun 2022 – Jun 2026

- Scholarships: International Student Top Scholarship (HK\$720,000 total); Dean's List; Tiger Talent Program, 3 times; coursework: Big Data Analytics, Machine Learning, Databases, Data Structures, Data Science, Software Engineering.

Work Experience

Hong Kong Monetary Authority

Analyst Programmer (IT Division – Business Enablement & Software Architecture)

Hong Kong

Jul 2025 – Present

- Owned Tableau and Power BI dashboards with product-owner metric definitions, training, and SOP-style notes so weekly leadership packs became refreshable KPI views instead of static exports.
- Shipped Python RAG with pgvector, SQL vector retrieval, and Grafana on about 10,000 BRDR PDFs so daily operations teams stopped blind folder hunts through shared drives.
- Automated firewall reviews with Next.js, JIRA API, and OPA policy-as-code, returning about 30 security staff hours monthly through repeatable LLM-guided checklists.

Jay Cee Ess Global

Software Engineer

Remote (Australia-based)

Aug 2025 – Present

- Revamped legacy funnel and site with performance-first web work and ads tests; user intake about 200%; reporting stayed tied to about AUD 100,000 monthly revenue context.
- Integrated Stripe with Apple Pay, Google Pay, and Alipay so cart abandonment fell about 70%.
- Cut quote latency about 99% with a Redis-backed Yen k -shortest-path router and cut database spend about 75% by moving hot Supabase paths to Upstash for multi-carrier routing.

Universal Innotech Group Company Limited

Junior Software Engineer

Tsuen Wan, Hong Kong

Sep 2024 – May 2025

- Cut recurring report turnaround from about two days to about two hours on 50,000+ records per cycle using Python parsing plus LLM-assisted transforms; prep time about 40% lower.
- Scored 10+ AML AI tools on financial data across accuracy, consistency, latency, and reliability; shipped Neo4j views and REST APIs so client decisions landed about 30% faster.

Yi Shing Group Ltd. (YSG)

Machine Learning Intern

Science Park, Hong Kong

Jun 2024 – Aug 2024

- Shipped a Flask-to-Vertex AI control plane with CI/CD for field pilots; fire and smoke models held about 90 to 95% accuracy in deployment checks.
- Wired hardware integration tests and load or performance endpoints so hazard-response drills traced camera and sensor faults quickly.

Skills and Interests

- **Programming Languages:** Python, SQL, JavaScript, TypeScript, Go, Java, C++, HTML, CSS.
- **Libraries & Frameworks:** Pandas, NumPy, Flask, FastAPI, React, Next.js, Tableau, Power BI, PyTorch, scikit-learn.
- **Software and Tools:** Microsoft 365 Excel, Word, PowerPoint; Git; Jira; Confluence; Grafana; PostgreSQL; Neo4j; Redis; AWS; GCP; Docker; Kubernetes; ServiceNow.
- **Skills:** Product-owner collaboration; KPI dashboards; process automation; L3 support; technical writing; continuous improvement.
- **Languages (spoken):** English, fluent; Cantonese and Mandarin, working; Urdu; Hindi.
