HSBC Hiring Team
Markets & Securities Services
Hong Kong SAR

Re: Analyst, GFX Middle Office, Markets & Securities Services

Dear Hiring Manager,

I am writing to apply for the Analyst role in GFX Middle Office within Markets & Securities Services at HSBC in Hong Kong (LinkedIn posting 4404072315). The role's emphasis on timely deal capture and amendments, robust trade lifecycle management, independent end-of-day control monitoring, and clean front-to-back data for Traded Risk and Finance closely matches how I work today.

At OSL in Trading & Liquidity, I support trade support and treasury-aligned workflows across multiple jurisdictions. I have standardized settlement protocols and multi-track operational pathways so bookings remain complete for downstream consumers, and I monitor liquidity and custodian balances so Front Office can execute during stressed markets while exceptions are surfaced early.

Previously at Amber Group on the Market Making operations desk, I maintained disciplined daily BAU with strong booking hygiene and dashboards that reconciled incentives and throughput with desk outcomes. During my FICC internship at Huatai Financial Holding I rotated through Liquidity Management and the Cash Bonds flow desk and coordinated with Risk and Settlement on limits and settlement readiness; that maps directly to GFX Middle Office partnership across Trading, Risk, and Finance.

I hold an M.Sc. Finance (Honours) from HKUST and a B.B.A. Professional Accountancy (Honours) from CUHK, with Bloomberg, Wind, Tableau, Excel/VBA, and R skills. I communicate clearly across teams, escalate issues appropriately, and enjoy improving processes with stakeholders from Front Office through Operations.

Thank you for considering my application. I would welcome the opportunity to discuss how I can contribute to GFX Middle Office controls and STP initiatives at HSBC.

Sincerely,

Zhao Yanbo
