Re: Associate, Korea High Touch Sales Trading, Hong Kong

Dear Hiring Manager,

I am writing to apply for **Associate, Korea High Touch Sales Trading, Hong Kong** on the Instinet side of Nomura. The posting emphasizes coverage of institutional clients alongside Korea and HK or China equities, tight coordination with sales, research, and Operations, and disciplined liquidity and regulatory awareness. Those priorities match how I support trading franchises today across booking, escalation, and client-facing workflows.

At OSL in Trading & Liquidity I run standardized settlement and treasury monitoring across multiple jurisdictions while keeping failures under roughly 0.5%. I escalate breaks with succinct rationales during volatile tapes so desks can prioritize execution quality without losing governance. That discipline carries into cross-chain liquidity rebalances where I trimmed slippage and improved capital turnover by about 20% in tracked windows while partnering with counterparties spanning Asia-Pacific venues.

Previously at Amber Group on the Market Making operations desk I delivered Tableau dashboards that tied incentives to throughput and supported about 15% revenue growth alongside daily BAU that improved tracker efficiency about 30% and shortened partner-project delays about 25%. During my FICC internship at Huatai Financial Holding I rotated through Liquidity Management and the Cash Bonds flow desk and supplied Bloomberg-grounded IG research and FTP monitoring with Excel-VBA, coordinating with Risk and Settlement so trades closed cleanly toward Operations and Finance downstream.

I rely on Mandarin and English for regional coverage combined with Bloomberg, Wind, Tableau, Excel-VBA, and R. While I continuously strengthen language depth, native Mandarin aligns with HK and China flows noted in your brief, professional English anchors cross-border collaboration, and I welcome focused study where Korea-specific coverage needs reinforcement.

Thank you for considering my application; I would value a conversation about supporting your Korea-focused high-touch book from Hong Kong.

Sincerely,

Zhao Yanbo
