Instinet, Global Markets
Central, Hong Kong SAR

Re: Associate, Korea High Touch Sales Trading, Hong Kong

Dear Hiring Manager,

I am writing to apply for the **Associate, Korea High Touch Sales Trading** role in Central, Hong Kong (LinkedIn posting 4409263906). The description highlights coverage of Korean and HK or China equities from Hong Kong, active engagement with cross-functional partners, disciplined monitoring of liquidity and execution quality, and collaboration with Sales, Research, and Operations while respecting risk and compliance guardrails. That mirrors how I already support trading workflows under pressure and translate complex settlement and liquidity signals into concise desk-ready updates.

At OSL in Trading & Liquidity I standardize settlement frameworks across jurisdictions, reconcile multi-asset flows such as ETFs and FX-linked activity with sub-0.5% failure rates referenced on my CV, and brief Front Office colleagues during volatile tapes so execution narratives stay aligned with treasury surveillance and broker-facing escalations.

Previously at Amber Group on the Market Making desk I maintained pivot-led trackers and Tableau views that tied BD incentives and event ROI to measurable throughput, contributing to roughly 15% revenue growth on the reviewed Web3 slate alongside about 30% higher tracking efficiency and about 25% fewer partner-project delays. During my Huatai FICC internship I rotated Liquidity Management and the Cash Bonds flow desk, circulated Global IG and macro inputs for institutional discussions, and coordinated with Risk and Settlement on FTP surveillance and trade limits ahead of bookings.

I hold an M.Sc. Finance (Honours) from HKUST and a B.B.A. Professional Accountancy (Honours) from CUHK, bring native Mandarin and proficient English for HK or China desk dialogue alongside Bloomberg, Wind, Excel-VBA, Tableau, and R, and thrive in high stakes, delivery focused environments where accuracy and stakeholder communication matter.

Thank you for considering my application.

Sincerely,

Zhao Yanbo
