Work Experience

OSL

Trading & Liquidity Department — Trade Support Associate

Hong Kong

Dec. 2025 – Present

- Acted as a daily liaison among liquidity trading, treasury, and jurisdictional stakeholders across HK, SG, AU, CA, ID, and BM, distilling settlement and escalation notes so internal partners consumed concise execution narratives ahead of reactive liquidity-provider deadlines.
- Standardized settlement pathways and multi-track workflows for high-velocity trading while preserving disciplined bookings that aligned operational checks with evolving venue and regulatory expectations across venues.
- Ran ETF, RWA, and FX-linked settlements with tight exception logs so failure rates stayed <0.5% when reconciling routes used by brokers and internal desks monitoring liquidity quality through stressed tapes.
- Delivered real-time treasury surveillance on house and custodian balances, translating latency and balance signals into short Front Office briefings so traders sized liquidity risk without slowing high-touch style escalation loops.

- Coordinated MM and BD sourcing, screening, and milestone execution with external liquidity partners so incentives, trade rationales, and hand-offs stayed traceable for recurring reporting cycles.
- Published Tableau dashboards linking event ROI and BD incentives to throughput, aligning desk-ready commentary with measurable outcomes tied to roughly 15% revenue growth on the leadership-reviewed Web3 initiatives referenced in reviews.
- Sustained timely refreshes of BAU spreadsheets and pivot-led trackers so leadership consumed consistent partner status during volatile sessions requiring rapid client and internal stakeholder updates.
